

Boston, Massachusetts, U.S.
May 24th, 2023

**The Honorable Bill Cassidy,
U.S. Senate
Dirksen Senate Office Building
Washington, DC**

Dear Senator Cassidy,

I am writing to congratulate you for your statesmanship and leadership in drafting and unveiling the “Americas Act” that seeks to create a deep and lasting trade partnership between the United States and others in the Western Hemisphere and enhance U.S. competitiveness across the globe. Establishing a bipartisan and comprehensive foreign and economic policy for the Americas – including a pathway for some countries in the region to join the U.S.-Mexico-Canada Agreement- provides an opportunity for the United States to live up to our values in our shared struggle for democracy and economic wellbeing and prosperity in the Americas.

As you are aware, our footprint in the U.S., across the Americas and around the world would greatly benefit from this reenergised approach to US trade and economic engagement in our hemisphere, one that will be a boon also to Louisiana and our operations and expanding footprint in St. Gabriel. Therefore, all of us at Orbia commend you for your efforts and vision, and stand ready to support you as the bill garners further traction.

I take this opportunity to convey to you our deep appreciation and the assurance of my personal esteem and high consideration.

Sincerely,

Sameer Bharadwaj
Chief Executive Officer
